

## Media Supporters

(Updated September 21, 2013)

We greatly appreciate the generosity of the 9News, KUSA-TV, Denver which, was the first Colorado broadcast station to donate time for the airing of 9-1-1 Colorado Foundation Public Service Announcements (“PSA”), and which also produced the PSA featuring Anchor/Reporter Gregg Moss. 9News airing of this PSA has resulted in the registration of thousands of Colorado residents for Emergency Notification Service. Public safety authorities use Emergency Notification Services to telephone, text and/or e-mail residents of areas threatened by wildfires, floods, tornados, chemical spills, police emergencies, etc., and provide warnings and instructions. You can view the 9News PSA on our Audio and Videos page.

We also greatly appreciate the Colorado Broadcasters Association and its participating Member Stations for airing the Foundation’s public information announcements at a special rate. Our initial announcements also directed towards registration of Colorado residents for Emergency Notification Services. The participating stations include:

**KAJX-FM**
