TESTIMONIALS

"My wife and I have been going to [the] 9Healthfair for many years in several different towns in Colorado, so it plays a big part in our lives. In April of 2003, we went again to have our annual blood screening but this time mine came back a little different. My PSA number came in a little high with a suggestion to make an appointment with my doctor. With further evaluation I was diagnosed with prostate cancer. I had no previous symptoms. I was given several options but at my age of 51, surgery was the best for me. As you can see 9Healthfair saved my life. My family and I are so grateful for the services available to all of our communities. 9Health Fair is great and I am looking forward to many more 9fairs."

Greg Y.

9Health Fair participant since 2003

"My husband and I attended the 9Health Fair in April of 2004 at the Susan M Duncan YMCA in Arvada. We had gone through most of the stations and were on our way out

CURRENT Sponsors

Sponsors make the 9Health Fair possible. As an independent nonprofit, 9Health Fair relies on its sponsors for financial and in-kind contributions that make free and low-cost health screenings available to more than 90,000 people each year.

Ways You Can Contribute...

Our community program needs support with supplies, screenings, services, delivered to communities, such as:

- ▶ 192,200 non-latex gloves
- ▶ 1,840 stethoscopes and blood pressure cuffs
- ▶ 14,250 tongue depressors and disposable mirrors
- ▶ 30,200 cotton balls
- ▶ Marketing and promotion
- ▶ Site grants
- ▶ Blood work vouchers for underserved populations
- ▶ Transportation
- ▶ Translation and interpretation services
- ▶ 9Health Fair collateral
- ▶ Training materials
- ▶ Materials associated with screenings
- ▶ More!

when we saw the line for skin screenings. It was shorter than usual so we decided to stop and get checked. Thank GOD we did. I was checked by the doctor who noticed a dark freckle on my left arm and a spot on my face; she recommended that both areas be checked by my doctor. I had the freckle on my arm removed and sent off to the lab. It was melanoma! It was .3mm deep so it was caught early. I will have to manage this for the rest of my life but now that I am educated, it will help me through any future incidents. While my doctor had a watch on this freckle, it was the 9Healthfair that recommended further inspection and treatment and may have saved my life. I will always be thankful to the 9Health Fair."

Cindy G.

9Health Fair participant since 2004
